

Section 2.12 Traffic/Transportation

12-month Issues

12-TT-1 Data Adequacy Deficiency – Please provide a legible topographic map at required scale of 1:250,000 with all requirements listed in Appendix B (g) (5) (A). Please label the major roads surrounding the site, and consider providing a color version for clarity.

Data Adequacy Response – A revised map Figure 8-10.1R has been prepared showing local streets and roadways and railroads serving the site. Fixed route transit and bike lanes are not provided in the area and are therefore not included.

12-TT-2 Data Adequacy Deficiency – Please provide a topographic map with scale of 1:24,000, with all listed requirements in the vicinity of the project. Include all proposed linear facilities routes on map.

Data Adequacy Response – Figure 8.10-3R has been revised to address this issue. The description of existing and planned roads and rail lines is included in AFC Section 8.10.3. The project vicinity is not served by light rail, bike trails, airports, or bus routes.
